

Mutual Alert

MUTUAL BANKS ARE ANTIDOTE TO WALL STREET

WASHINGTON POST ARTICLE

Sunday December 2, 2012

Good Morning:

Please see the attached Washington Post article “Occupy Wall Street? Just Defund It” which appeared in Sunday’s edition (December 2, 2012). I was interviewed by author Steven Pearlstein for this featured article on the first page of the business section. Among other things, I shared with him data regarding the comparative strength of mutual banks and had an influence on this highly favorable press regarding the mutual form of organization. I have no doubt that more than a few members of Congress and their staffs and the senior staff at the banking agencies read the article.
